

MY FAVORITE ACTIVITY

Billington
Hour

My absolute favorite thing to do is go to the beach with my family!!! I love everything about the beach! There are all kinds of things that we do at the beach. One day soon we will permanently live near a beach.

We LOVE to surf at the beach. Surfing is so much fun. The rush of catching a wave is like no other. We learned how to surf about five years ago and now everytime we go down to the beach it's a must do activity!

Paddle boarding is another fun activity that we do at the beach. We have a paddle board that doubles as a kayak. Paddle boarding is almost like surfing but you start standing up - instead of popping up onto the board.

Another activity that we do at the beach is shelling! There are all kinds of shells to choose from, but my favorite shells are the conch shells. I like the different colors they are and how they swirl around and around.

We also H³ - A.K.A. Triple H'ing - We like to walk out into the ocean and find Hermit Crabs. We like to catch the biggest ones we can because they have the best shell. They're ugly creatures that live in beautiful homes.

Tubing the waves is so much fun. We always get on our bellies and ride the waves all the way into the beach. It doesn't give you the same rush as a surfboard but it's still just as fun! We can tube forever.

At night we will go to the beach and try and catch a blue crab. They are hard to find and to catch. When we do catch one we will surround it in a circle and play crab roulette. We all have flashlights and when we're in the circle we turn off our flashlights and the first one that turns on the flashlight loses. Because the crab will run off!

After a long day of playing in the waves, catching hermit crabs and shelling we like to have a little cookout on the beach. We always do simple things like hotdogs or hamburgers. We really snack the whole time that we are there because playing in the waves will make you super hungry.

Being and playing at the beach with my family is my absolute FAVORITE thing to do! There is just so many things that can take up your time and that are fun! At the end of the day we like to walk the beach with our flashlights and a lot of times there are people that shoot off fireworks on the beach and we'll watch them as while we're down there.
