You may study very little and cram just before a test.	For each hour of class time, you may need twice as much study time.

## COLLEGE KNOWLEDGE

Think of college as an investment in your future. Here's what you can do to ensure your investment yields the greatest return.

### Prioritize

- ▶ Learn to manage your time wisely by prioritizing. Put your classes/homework first, followed by work and extracurricular activities.
- ▶ Don't procrastinate! Study the more difficult subjects first.
- ▶ Stay healthy. Focus on your physical and mental health by making smart food choices, exercising, planning down time and seeking help if needed.
- ▶ Don't forget down time. Your schedule may get crazy, so be sure to allow yourself adequate time to rest.

### Organize

- ▶ Use a daily planner, either written or electronic, and set reminders to help you stay on track.
- ▶ Review syllabi (a syllabus outlines the content and requirements for a course) often to avoid missing deadlines.
- ▶ Set midterm goals and analyze your progress along the way.
- ▶ Don't give up. Remember that you can overcome fear of failure, emotional blocks and unrealistic expectations by improving your organizational skills.

### Socialize

- ▶ Get to know the campus. Attend an upcoming event.
- ▶ Introduce yourself to your professors. If you're in large classes, you won't be just another face in the crowd.
- ▶ Get involved in at least one student organization.
- ▶ Be careful about overextending yourself; you can enjoy the social benefits of college without losing your focus.
- ▶ If you're away from your family, don't turn down an opportunity to be 'adopted' by a friend's family or someone from a local church.
